

INDUSTRIAL & LABORATORY SAFETY STORAGE CABINETS

ABOUT US

Incorporated in 1990, Method began as a trading entity primarily focusing on supplying imported laboratory service fittings to the local market.

The growing laboratory market seeking a more cost-effective option became the reason Method pioneered the manufacturing of laboratory fittings in Malaysia in 1994. Starting out from a humble workshop, we focused on providing an affordable yet quality alternative to the market. With the support from our customers, we quickly expanded into a reputable one-stop laboratory fixture supplier.

Today, Method laboratory and safety products are used and trusted in over 40 countries worldwide. Our commitment to providing uncompromising quality and affordable solutions to our customers remain to this day and beyond.
